The Royal Military College

THERE are few national institutions of more value and interest to the country than the Royal Military College at Kingston. At the same time its object and the work it is accomplishing are not sufficiently understood by the general public.

The College is a Government institution, designed primarily for the purpose of giving the highest technical instructions in all branches of military science to cadets and officers of Canadian Militia. In fact it is intended to take the place in Canada of the English Woolwich and Sandhurst and the American West Point.

The Commandant and military instructors are all officers on the active list of the Imperial army, lent for the purpose, and in addition there is a complete staff of professors for the civil subjects which form such a large proportion of the College course.

Whilst the College is organized on a strictly military basis the cadets receive in addition to their military studies a thoroughly practical, scientific and sound training in all subjects that are essential to a high and general modern education.

The course in mathematics is very complete, and a thorough grounding is given in the subjects of Civil Engineering, Civil and Hydrographic Surveying, Physics, Chemistry, French and English.

The object of the College course is thus to give the cadets a training which shall thoroughly equip them for either a military or civil career.

The strict discipline maintained at the College is one of the most valuable features of the system. As a result of it young men acquire habits of obedience and self-control, and consequently of self-reliance and command, as well as experience in controlling and handling their fellows.

In addition the constant practice of gymnastics, drills and outdoor exercises of all kinds, ensures good health and fine physical condition.

An experienced medical officer is in attendance at the College daily.

Seven commissions in the Imperial regular army are annually awarded as prizes to the cadets.

The length of course is three years, in three terms of 9½ months' residence each.

The total cost of the three years' course, including board, uniforms, instructional material, and all extras, is from $750 to $800.

The annual competitive examination for admission to the College will take place at the headquarters of the several military districts in which candidates reside, in May of each year.

For full particulars of this examination or for any other information, application should be made as soon as possible to the Adjutant General of Militia, Ottawa, Ont.

MESSRS. KOCH & CO.,
Orange and Plane Sts, Newark, N.J.

Esteemed Gentlemen:—The medals, as ordered, were duly received.

We are very much pleased with the medals, as the engraving is executed very plainly and the price so low, that any school, no matter how small or poor it may be, should have a few medals at its disposal for the encouragement of the pupils.

We will recommend your medals to our friends, and if we are in need of any more we want to be supplied by your firm only. We are, respected gentlemen.

Yours Cordially,
SRS. OF ST. DOMINIC.

Merit Medals

We wish to bring to your attention our NEW and original line of Merit Medals, which not alone in the matter of beauty and orginality of design, but in the very low prices as well, have displaced the old style, which were expensive and without relief. **Give the youth an incentive toward higher and better things.** A medal is a reward which not only represents a fixed value intrinsically, but is a prize that can be worn and shown, thus stimulating a desire in others for similar honors.

Preface

THE CANADIAN CATHOLIC DIRECTORY for 1904 includes official returns from the entire territorial Province of British Columbia.

During the past year the jurisdiction of the Catholic Church in this Dominion was brought into harmony with national boundaries by the inclusion of the former United States Diocese of Vancouver, now the Archdiocese of Vancouver's Island, Canada.

In returning thanks to the Hierarchy we must acknowledge particularly the careful correction of all diocesan lists. Every effort has been made to supply the latest information in the present volume. Rev. J. M. Cruise, as in past years, has kindly compiled the Calendar.

The Catholic Church in the Dominion of Canada and Newfoundland at the end of 1903 enumerated 1 Apostolic Delegate, 8 Archbishops, 25 Bishops, 1 Prefect Apostolic, 1 Mitred Abbot, and 3,489 Priests. The estimated Catholic population is 2,371,512, and the number of churches 3,422.

Among the institutions under Catholic direction are 3 universities, 25 seminaries and classical colleges (with an attendance of 3,500) and 361 academies for boys and girls, attended by 106,015 pupils. The returns also show an attendance of about 315,000 pupils in parochial schools. Hospitals and asylums, homes for the aged, and protectories for children in Catholic charge number 248. The returns of parochial schools and the attendance thereat are not quite complete. The figures given are somewhat below the mark, owing to blanks in some of the lists.

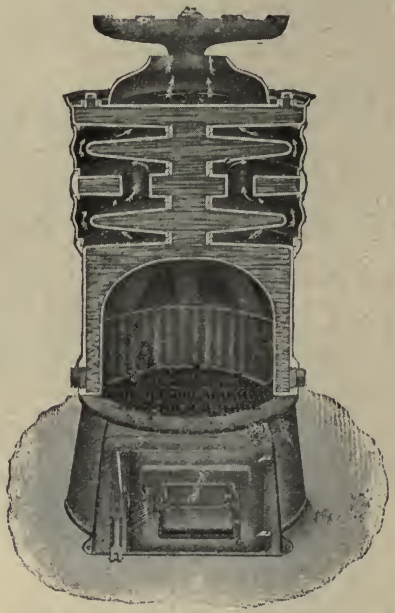
Institutional Heating

Not a few communities in Canada recognize the worth of the Pease system in affording a means for the proper heating of buildings by a well controlled and equally distributed flow of warmth. In this respect the Pease Company has so well founded a reputation that it is not wisdom to proceed upon the installation of a heating apparatus without first consulting that firm.

Ready and satisfactory references will be supplied by the Company, and particular instances furnished of the satisfactory and economical working of the Pease system under circumstances similar to those related in the inquiry.



Pease Economy Hot Water Boilers

Are the accepted standard heaters for Canada and the United States. Where they are installed undisturbed satisfaction invariably follows. Made in all sizes to meet the requirements of buildings of all dimensions.

PEASE ECONOMY WARM AIR FURNACES are adapted to buildings that are not extended structures. For compactly built houses and homes they exactly fill up the measure of requirements. A water pan in the furnace keeps the warmed air moist.

The BRILLIANT RECORD

OF THE

Heintzman & Co. Piano

Is closely connected with Canada's musical history of the last fifty years. The tours of such artists as Friedheim, Burmeister, Hyllested, Jonas, Nutinin, Plunket Greene, Plancon, Albani, R. Watkin Mills, Trebelli, and others, have all been triumphs of this famous piano—it being in each case the exclusive choice. The mechanical poise and adjustment is simply marvelous, and the tone quality unequalled.

THE MUTUAL LIFE OF CANADA

Is 34 years old with solid assets exceeding - **$7,000,000**
Has insurance in force exceeding - - - - - **37,000,000**
Has paid in cash to its policy-holders or their families over - - - - - - - - - - - **6,000,000**
And still holds in reserve for their security - - **6,500,000**

It confines its business to the British Possessions in North America, because

(1) The climate is the most healthy in the world—hence **our low ratio of death losses;**

(2) It costs less to do business in Canada than in foreign countries—hence **our low expense ratio;** and

(3) Investments in Canada, while safe, command a better interest rate—hence **our large interest-earning powers.**

Actual results realized by policyholders have been **more favorable** than in any other Company—the **most practical test of superiority.**

Think it out for yourself—a policy in this Company **cannot fail** to be a **good investment.**

ROBERT MELVIN, President. **GEO. WEGENAST,** Manager.
W. H. RIDDELL, Secretary, **Waterloo, Ont.**
